These investors are as convinced that DATED has demonstrated 36,000,000 tons of ELY CENTRAL is going to yield hundreds of commercially profitable ore. They know that in per cent in profits on present purchases during the Ruth group, to the east of the ELY CEN- the next few years as they are certain that they TRAL estate, the NEVADA CONSOLI- made no mistakes in buying such stock as CALU-DATED has blocked out and made ready for MET AND HECLA and NEVADA CONSOL-IDATED when they were ratable as mines and in the market with the present position of ELY

It is safe to follow these investors in their been increased to a daily capacity of 25,000 tons, market commitments. They do not make mistakes. They buy copper stocks for profits. It is because they understand the profit possibilities of ELY CENTRAL that they are buying that acreage to meet the reduction plant's maximum issues now in daily increasing volumes, and by their buying constantly forcing the issue to new high price levels. Certainly if ELY CENTRAL is safe and promising for this experienced copper SOLIDATED, after but fifteen months of actual investment class, it is equally safe and promising for the less experienced and less talented class

In anticipation of the rapid market appreciation in value of ELY CENTRAL shares, an appreciation which must follow conditions outlined above, we advise you to place an order for the immediate purchase of ELY CENTRAL They understand that on the initial rate of shares with us, or with your own broker. Make your orders read "At the Market." There were orders for thousands of shares in

the market yesterday that were returned unfilled

because the limits were too low. We feel confident the opening sale to-day on the New York Curb will be recorded at \$3.50 per share or higher, and that \$4.00 per share will

look cheap for the stock before Monday. We have coming from the press in the next day or so an attractive booklet, detailing the AMALGAMATED COPPER, capitalized at organization and financial conditions of ELY \$155,000,000 and selling in the open markets on CENTRAL, embodying Col. Farish's report on a valuation around \$130,000,000; that NEVADA the property, chronicling in detail the developments to date on the estate, and describing the copper mining wonders of the Ely district. This booklet contains ground plan and geological famous producers as ANACONDA, NORTH maps of ELY CENTRAL in colors and some of the most remarkable photographs ever produced in half-tone. One of these is 101/2 x 48 inches in return a larger sum to shareholders than BUTTE size, being the largest photograph ever included in a copper mining company's prospectus. It presents a bird's-eye view of ELY CENTRAL'S estate, with the wonderful steam shovel pit of the NEVADA CONSOLIDATED in the foreground. We shall be pleased to mail a copy of this booklet gratis upon application. Highest bank references.
